*Extreme Sandbox: Launches its newest adventure – Extreme Fire Truck!*

**Extreme Sandbox is now offering the opportunity for customers to play on their real working fire truck! This truly unique and new adventure offering is being launched to coincide with National Travel & Tourism week to showcase what the Sandbox has to offer!**

Hastings, MN – Extreme Sandbox is celebrating its first anniversary by expanding their heavy equipment line-up. The newest addition to their heavy equipment team is a real working fire truck. Who doesn't love fire trucks? They are offering a very unique chauffeur service with this 10 passenger fire truck. Parents will also now have the ability to set up a fully fledged fire truck birthday party right in front of their house. There are many different options available for the use of the Extreme Fire Truck.

When asked "Why a fire truck?" owner Randy Stenger had a simple answer, "Why not?" Stenger continued, "When we were kids I remember playing for hours in my sandbox with all different types of toys.....now I get the amazing opportunity to make these dreams come true in a much larger scale". Extreme Sandbox has had a very unusual business model letting customers be a kid again. When asked how the fire truck idea came up Stenger said "actually, most of our ideas come from our customers. Nothing we are doing is rocket science here. The ideas are the easy part! Making them come to life is where our team has been able to step up to the plate". Fulfilling bucket list dreams seems to be their niche.

Extreme Sandbox is now in its second year of operations and has hosted over 500 visitors from all over the country and even as far away as UK, France and Japan. And in that short time they have vaulted to the [#1 rated attraction in the Metro Twin Cities](#) on Trip Advisor as well as received rave reviews from their fans. They are currently in the process of expanding operations in the Twin Cities market with future hope of growing nationally. "We are always looking to expand not only our physical operations, but also continue to evolve and build our Heavy Equipment Adventure brand", Stenger stated.

Extreme Fire Truck is available for media to view both out at their location (Hastings, MN) or can be brought to any location.
